Ricky,
I would like to have a first shot on the outline before I talk with you to have your thoughts and to discuss work contributions. Give me 2 more days.

Hi Roger,

I refer to the attached message from Colin. You have not asked me to do anything for the WEPN meeting. Is there any preparation work which I should do (or can help out for you)?

Please advise.

Regards, Ricky

Subject: Strategic Plans

In my July 1 memo I sent a recommended format for the operating company plans against the 9 Principles.

As I mentioned then, these will go into the WEPN Conference book that we are compiling and I hope that you will have no trouble getting them to me by September 4 on diskette, as requested.

I am attaching to this memo the 1998/1999 Environmental Policy strategic plan. You will see that it is a somewhat modified version of the 1998 plan we distributed in January this year and takes into account subsequent changes and additional thoughts. This plan will also appear in the Conference Book and is intended to act as a broad guide for what Environmental Policy seeks to achieve over the coming eighteen months.

Perhaps it may help to crystallise your own thoughts.

Best regards....Colin
